

HIMANSHU YADAV

FRONTEND DEVELOPER

✉ himanshu.hexawarre1356@gmail.com ☎ +91 9521609676  GitHub  LinkedIn

PROFESSIONAL SUMMARY

Frontend Developer focused on building responsive, modern, and production-ready web interfaces using React.js, Next.js, TypeScript, JavaScript, and Tailwind CSS. Hands-on project portfolio spans EdTech ERP, dating and social discovery, astrology platforms, corporate software services, and education websites. Comfortable translating UI requirements into reusable components, responsive layouts, interactive experiences, and API-connected frontend flows, with working knowledge of Node.js and Git/GitHub.

TECHNICAL SKILLS

Frontend	React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS
UI & Interaction	Responsive Design, Framer Motion, Component-Based UI, Cross-Device Layouts
Development	REST API Integration, Node.js, Git, GitHub, Vite, Debugging

SELECTED PROJECTS

Hexa School ERP

hexaschoolerp.com ↗

Tech: React.js, JavaScript, Tailwind CSS, REST APIs

AI-powered school management platform covering academic and administrative workflows.

- Built responsive frontend experiences for modules such as student information, attendance, fees, exams/results, admissions, notices, and school operations.
- Structured reusable UI patterns for admin, teacher, parent, and student-facing workflows and data-heavy screens.
- Focused on clear navigation, responsive behavior, and maintainable component styling for a multi-module ERP product.

Vynk Dating

vynkdating.com ↗

Tech: React.js, JavaScript, Tailwind CSS, Framer Motion, API Integration

Dating and social-discovery experience centered on verified profiles, meaningful matching, communication, and user safety.

- Created responsive landing and application interfaces for discovery, profile, subscription, download, safety, and account flows.
- Implemented polished interactions and motion-driven UI while keeping layouts optimized for desktop and mobile.
- Worked with frontend flows supporting matching, conversations, verification-oriented UX, and safety-focused product messaging.

Hexawarre Software

hexawarresoftware.com ↗

Tech: React.js, JavaScript, Tailwind CSS, Framer Motion

Corporate technology website presenting web, mobile, custom software, and digital solution capabilities.

- Developed modern service-led sections, responsive layouts, reusable content components, and conversion-focused calls to action.
- Applied animation and interaction patterns to improve presentation while maintaining clean, scalable frontend structure.

Astro Ambuj

astroambuj.com ↗

Tech: React.js, JavaScript, Tailwind CSS, API Integration

Astrology and spiritual-guidance platform with Kundli, Panchang, consultation, and service experiences.

- Built responsive interfaces for astrology services including Kundli analysis, numerology, Vastu, online puja, palmistry, and consultation journeys.
- Supported interactive forms and dynamic information experiences such as Kundli generation and Panchang-oriented content.

SELECTED PROJECTS (CONTINUED)

Acharya Bhairavacharyabhairav.com

Tech: React.js, JavaScript, Tailwind CSS, API Integration

Vedic astrology platform featuring guidance, horoscope content, and consultation-oriented user journeys.

- Developed responsive UI for astrology content and service pages, including horoscope and Panchang-style information experiences.
- Worked on user-facing authentication and interactive frontend flows with attention to mobile usability and visual consistency.

Jai Prakash Narayan Sarvodaya Balika Vidyalayawww.jpnsvlk.in

Tech: Next.js, TypeScript, React.js, JavaScript, Tailwind CSS

Responsive school website supporting admissions, academics, announcements, events, resources, and student-facing information.

- Created accessible, structured interfaces for school information, notices, academic resources, events, and admission-related content.
- Supported functional information flows including student resources and transfer-certificate search while keeping the site responsive.

CORE STRENGTHS

■ Responsive & Mobile-First UI

■ Reusable React Components

■ Frontend API Integration

■ UI Animation & Micro-interactions

■ Cross-Browser Layouts

■ Clean, Maintainable Styling

■ Debugging & UI Optimization

■ Git-Based Collaboration
